Sc. students on **09th September 2023** from **7:30 am to 9: 10 am at Hall No. 211.** It included of an activity which offers students to present formal and informal dialogues while introducing others. The **objective** was to make students realize what communication means and build their confidence to enhance communication and life skills.

We conducted an activity for students aimed at improving their ability to introduce others using dialogues. This report outlines the objectives, implementation, outcomes, and future recommendations for this activity.

The first session of the activity was about the preparatory phase for this activity. 20 students have enthusiastically participated in this activity. The students were divided into smaller groups which include 3-4 members each. Each group was tasked with creating a dialogue in which they will introduce a fictional character representing a different culture. Each group presented their dialogue to the class. After each presentation, a brief Q&A session was held to clarify doubts and encourage discussion. Students showed a marked improvement in their ability to introduce individuals from different cultures, highlighting their increased understanding and empathy. Presenting in front of their peers helped students gain confidence in public speaking and presentation skills. The activity fostered an inclusive environment where students from diverse backgrounds collaborated to achieve common goals.
