## Beyond Pages :- Fostering reading habit in a Digital Age.

Reading has always been a hobby for many people throughout the world; back in the time when libraries which were the only primary source of information were fulfilled with book readers and book enthusiasts, <sup>which</sup> were engaged in library. Today in this modern generation where technology is used in almost each & every field, literature and stories are also included in this. AI that is Artificial Intelligence has given wide range of information and sources to collect the literature from world wide. E-book, audio-books and E-learning has made possible for the gen-z's to adapt the hobby of reading. Reading not only increases vocabulary but also takes you to a different world, where it's your imagination and your characters.

Today's generation kids know how to use technology for daily tasks and overcome difficult workload. Today childrens ~~lock~~ lack reading and keep on playing ~~stupid~~ stupid online games.
