## Proposal

### Introduction:

The department of Computer Science is planning to organize **Mock Interview** for T.Y.B.Sc (CS) and T.Y.BCA (Science) students to acquire knowledge about interview skills. In this activity students are paired one-on-one with a company employee who interviews each student as if he/she were being interviewed by an employer for a paid internship or job. The experience allows students to practice their interviewing skills and professional behaviors while at the same time developing a level of comfort in communicating with professionals.

### Objectives:

1. To encourage and letting up fear of an interview.
2. To explore and develop their Technical skills.
3. Increase productivity in placement.
4. To develop interview strategies and enhance their communication skills.

### Outcomes:

1. Students will get the chance to demonstrate the connection between academic concepts being taught in College and how they are applied in the workplace.
2. Students will receive feedback on their interview and become better prepared for their next interview.
3. Students will able to demonstrate professional behavior(s) including preparedness, professional attire, and respectful presentation.
4. Students will develop confidence in relationship to their interviewing skills.
