### Procedure

This workshop was held on 10<sup>th</sup> March-2023 at 12:30 pm. All student participated actively. Total 126 students participated in this Worksop. At the starting of the program the Asst.prof . Vaishnavi lokhande welcomed the audience and Then Joint secretary of P.G.K. Mandal Dilipbhai Jaggad Express his views regarding Foreign language study. After that Asst.Prof. Vaishnavi Lokhande introduced the guest Mrs. Neha Mahajan. Then Mrs. Neha Mahajan explains reasons to study Foreign language study creates more positive attitudes and less prejudice toward people who are different. Studying a foreign language will improve your chances of getting a job. Studying a new culture helps you meet new and interesting people. Dealing with another culture enables people to gain a more profound understanding of their own culture .The study of foreign languages boots confidence. Graduates often cite foreign language courses as some of the most valuable courses in college because of the communication skills developed in the process .International travel is made easier and more pleasant through knowing a foreign language. Skills like problem solving, dealing with abstract concepts, are increased when you study a foreign language. Foreign language study enhances one’s opportunities in government, business, medicine, law, technology, military, industry, marketing, etc.

A second language improves your skills and grades in math and English and on the SAT and GRE. Analytical skills improve when students study a foreign language. Foreign languages provide a competitive edge in career choices: one is able to communicate in a second language. Foreign language study enhances listening skills and memory. One participates more effectively and responsibly in a multi-cultural world if one knows another language. Your marketable skills in the global economy are improved if you master another language. Foreign language study offers a sense of the past: culturally and linguistically.The study of a foreign tongue improves the knowledge of one’s own language: English vocabulary skills increase. The study of foreign languages teaches and encourages respect for other peoples: it fosters an understanding of the interrelation of language and human nature. Foreign languages expand one’s view of the world, liberalize one’s experiences, and make one more flexible and tolerant. Foreign languages expand one’s world view and limit the barriers between people: barriers cause distrust and fear. Foreign language study will completely chance your traveling experience. As immigration increases we need to prepare for changes in the American society.

One is at a distinct advantage in the global market if one is as bilingual as possible. Foreign languages open the door to art, music, dance, fashion, cuisine, film, philosophy, science Foreign language study is simply part of a very basic liberal education: to “educate” is to lead out, to lead out of confinement and narrowness and darkness. Neha mam also explained exam levels of different languages After session mam Asst.Prof Priya Khairnar and Asst.Prof. Vaishnavi Lokhande took feedback for the activity followed by Asst.Prof. Priya Khairnar gave the Vote of thanks.

### Conclusion

Studying other languages, enlarge one's world view, liberalize one's experiences, and increase one's adaptability and tolerance. Studying a foreign language fosters more accepting attitudes and reduces prejudice towards those who are different. And studying a foreign language allows us to be able to exercise abilities such as problem solving, coping with abstract notions. Your comprehension of a foreign language will therefore increase.
